Our office has a waiting list of almost 1000 for anyone that is 65 & older and can call our office to sign-up. If anyone else feels that they qualify for a vaccine, they can call our office with any questions. Again, according to IDPH individuals outlined in ACIP and State of Iowa priority groups may receive the COVID-19 vaccine regardless of permanent place of residence (county or state).

For the remaining priority populations in Phase 1B that IDPH has identified, we will continue to work directly with those groups to arrange vaccinations as soon as the vaccine is available. We are required to follow the guidance set forth from Iowa Department of Public Health, the ACIP and the CDC for the administration of the COVID-19 vaccine in Pocahontas County. Once we are aware of the amount of vaccines allocated to our county, we continue to schedule appointments and schedule vaccination clinics. We are working as fast as we can and it's going to take time because the vaccine itself is in very short supply.

Please remember that our state is in a current vaccine shortage and we do not know WHEN the next doses will arrive and HOW MANY will arrive. When the vaccine is allotted to PCHD, we will continue to provide accurate and updated information via local media, like newspapers and radio, our Pocahontas County website, or you can follow "Public Health of Pocahontas, Iowa" on Facebook.
