**May 21st** – 100 2nd doses from 4/23 10am – noon in the Assembly Room

We are taking names for our waiting list for any individual that is 18 years of age and older that would like to receive the vaccine. We continue to vaccinate those who are 65 & older, 64 & younger with medical conditions, employees of essential businesses and anyone else that is 18 & older.

Based on the small number of names remaining on our waiting list, I'm anticipating that we will not be scheduling anymore large vaccination clinics after April 23rd. If there continues to be demand for the vaccine, we will schedule in groups of 10 for the Moderna vaccine at our office. The Moderna vaccine is a 10-dose vial that must be used within six hours after it's punctured.
