REPORT OF CLASSIFICATION COMMISSION
RECLASSIFICATION OF BENEFITS
DRAINAGE DISTRICT NO. 168
POCAHONTAS COUNTY, IOWA
2021

We, Troy Stockwell and Jerry L. Hammen, landowners in Pocahontas County, and Jacob L. Hagan, engineer, are the commissioners duly appointed to reclassify lands within the boundaries of Drainage District No. 168 in Pocahontas County, Iowa. Pursuant to our appointment we have examined each and every benefited parcel within the district and as recommended in the engineer's report on file in the office of the County Auditor. Each section or small tract of land within the district has been classified and the percentages of benefit each parcel derives from the several district facilities have been determined.

We recommend and report eight assessment schedules herein to be used for payment of future maintenance and other costs of each of the separate facilities as may arise. Set beside each new schedule is a basis cost. This basis cost is assumed and should not be considered to be the original cost plus subsequent improvement costs of each facility. We have apportioned this basis to the lands determined to be benefited by each named facility to serve as a basis for the allocation of future costs associated with the named improvement.

<u>New Schedule</u>	<u>Basis Cost</u>
Main Open Ditch	\$ 100,000
Main Tile & Laterals	\$ 100,000
Lateral A-3	\$ 10,000
Lateral A-6	\$ 10,000
Lateral A-7	\$ 10,000
Lateral A-8	\$ 100,000
Lateral A-9	\$ 10,000
Lateral A-10	\$ 10,000

The Lateral A-5 Tile only serves as an outlet for Drainage District No. 16, we recommend the Lateral A-5 Tile be abandoned as a district facility and turned over to Drainage District No. 16 to be classified when Drainage District No. 16 is reclassified.

We intend that the costs of the recently completed improvements and the costs of annexation and reclassification procedures be assessed on the attached Open Ditch and Main Tile schedules, adjusted to the actual cost of the project, as well as the one-time special use schedule. A separate special assessment for the landowners with wetland mitigation will be needed, once the actual dollars for wetland mitigation have been determined.

Accordingly, we herewith submit our report. The schedule presents in tabular form for each benefited parcel:

- 1) The names of the owners thereof as shown on the transfer books in the Auditor's office
- 2) The parcel number
- 3) The number of benefited acres
- 4) The classification or percentage of benefits derived relative to a 100% benefit assigned to the tract having the greatest benefit
- 5) Apportionment of the cost basis according to our classification of the benefited lands

The schedules also show benefits to the county secondary roads and state highways. Included with this report are plats of the benefited land for each assessment schedule. It is the recommendation of the commissioners that this report be adopted.

Respectfully submitted,

Troy Stockwell, Landowner

Jacob L. Hagan, P.E. IA Reg No.: 25738

Jerry L. Hammen, Landowner
