

The Test Iowa site schedule is live now for Storm Lake. The site will open on Saturday. Anyone who is concerned that they may have the virus or have been exposed to the virus can go to www.testiowa.com and take the survey. If they should be tested, the site will give them a QR code to show at the Test Iowa site to get tested. The State lab is caught up on testing so results are coming back fairly quick. This is open to anyone in Iowa. This is our chance to find those asymptomatic spreaders of the virus and get them to isolate to prevent further spread of the virus. They can test 320 people/day, the site is managed by the National Guard and will be set up at the Storm Lake High School. Also, there are no questions or concerns about citizenship, immigration, etc. We just want people to be tested. This will also help to conserve test kits in our area.

Thanks!
